

SPONSORSHIP PROSPECTUS

APRIL 3-4, 2027
VIRTUAL CONFERENCE

**Education and Support for Patients On
Immunoglobulin and Biologic Therapies**

Dear Valued Partners,

We are excited to invite you to support the IgNS Patient 360 Conference, taking place April 3–4, 2027. This annual conference is designed to educate and empower patients receiving immunoglobulin and biologic therapies, as well as their families and caregivers.

Patient 360 offers a unique platform for attendees to deepen their understanding of therapy options, improve communication with healthcare providers, access vital advocacy, support resources, and much more.

As a sponsor, you will have the opportunity to:

- Engage directly with patients and families, elevating visibility and understanding of your brand.
- Participate in curated networking experiences that foster authentic connections.
- Share educational content about your products, services, and support programs.
- Demonstrate your commitment to patient-centered care and innovation.
- Help keep registration free for all patients, caregivers, and families.

Why sponsor?

Past sponsors have reported increased brand recognition, meaningful interactions with attendees and expanded reach within the patient community. Your involvement reinforces your leadership in supporting patient-focused initiatives.

We would be honored to have you join us in making this year's conference the most impactful experience yet. For questions or to secure your participation, please contact the IgNS Conferences Team at events@lg-NS.org.

Thank you for your continued support and consideration. We look forward to *seeing* you at Patient 360!

Sincerely,

Luba Sobolevsky, PharmD, IgCP®

President & CEO, Immunoglobulin National Society

"As someone newly diagnosed with myasthenia gravis, I felt completely lost. After two days at P360, I understood my therapy, my options, and most importantly, I didn't feel alone anymore."

Renee A.

2026 Patient 360 Attendee

"I've attended three years in a row now. Every year I walk away with something new, like a resource, a connection, a piece of information that changes how I advocate for myself. I love that it's virtual, and it's free. Patients like me cannot get to in-person meetings but really need the information and support."

David K.

2024–2026 Patient 360 Attendee

"P360 gave me the confidence to have real conversations with my neurologist about my CIDP treatment plan. I came in with questions I never would have thought to ask before attending."
